ISACA CGEIT Boot Camp

Infosec's Certified in the Governance of Enterprise IT (CGEIT) Boot Camp is a four-day training focused on preparing you for the ISACA CGEIT exam. You'll leave with the knowledge and domain expertise needed to pass the CGEIT exam the first time you take it.

Course description

This CGEIT Boot Camp is designed for experienced IT governance personnel and those who have responsibilities for the stewardship of IT resources. You will learn how to effectively implement and manage governance across all areas of technology — as well as align that technology with strategic enterprise goals.

This training also explains the CGEIT examination process and helps prepare you for your CGEIT exam by providing guidance and testing your exam readiness through sample questions. You'll leave fully prepared to earn your CGEIT certification.

Prerequisites

To earn your CGEIT, you must submit verified evidence of a minimum of five years of experience managing, serving in an advisory or oversight role, and/or otherwise supporting the governance of the IT-related contribution to an enterprise. This includes one year relating to the definition, establishment and management of a framework for the governance of IT, as well as broad experience in at least two of the other CGEIT domains.

CGEIT objectives

This boot camp prepares you to pass the ISACA CGEIT exam, which covers four domain areas designed to reflect the work performed by individuals who have a significant management, advisory or assurance role relating to the governance of IT.

» Domain 1: Governance of enterprise IT
» Domain 2: IT resources
» Domain 3: Benefits realization
» Domain 4: Risk optimization

What our students are saying

I really appreciate that our instructor was extremely knowledgeable and was able to provide the information in a way that it could be understood. He also provided valuable test-taking strategies that I know not only helped me with this exam, but will help in all exams I take in the future.

Michelle Jemmott

Excellent! Our instructor had a vast background and related the materials to real life. Much better than just teaching the materials to pass an exam … but he did that as well. He went out of his way in class. The extra materials really benefited us when we returned to our real jobs! Great experience!

John Peck

Very impressed with Infosec. My instructor did a great job delivering the information strategically and in a way for all to understand. I would definitely take another class/certification prep course.

Sylvia Swinson
Texeltek

The instructor was able to take material that prior to the class had made no sense, and explained it in real-world scenarios that were able to be understood.

Erik Heiss
United States Air Force

The course was extremely helpful and provided exactly what we needed to know in order to successfully navigate the exam. Without this I am not confident I would have passed.
